

American Society of Clinical Oncology

Journal Reprints and ePrints

Springer Healthcare is proud to exclusively* represent commercial article reprints and ePrints for the world's leading professional oncology society

Springer Healthcare promotes the use of gold-standard journal articles as the cornerstone of communication between medical research and clinical practice.

ASCO reprints are provided with full-service production and delivery, all at the standards you have come to expect from Springer Healthcare.

In addition to ePrints and reprints, Springer Healthcare has priority access to ASCO Annual Meeting and Symposia abstracts published as supplements to JCO.

Contact Springer Healthcare for more details about abstract searches, collections and other licensing opportunities from all ASCO journals.

* excludes China, Hong Kong, Taiwan and Macau

Springer Healthcare is part of the Springer Nature group

Journal of Clinical Oncology® (JCO) serves its readers as the single most credible, authoritative resource for disseminating significant clinical oncology research. Original reports remain the focus of

JCO, publishing the highest quality research dedicated to original clinical research and patient care. JCO is also the home for ASCO's full clinical practice guidelines. 2015 Impact Factor: 20.982

Journal of Oncology Practice® (JOP) offers a unique mix of cancer care delivery research and reviews with a clinical focus. JOP also addresses an expressed need of practicing physicians to have

compressed, expert opinion addressing common clinical problems.

Journal of Global Oncology® (JGO) is an online only, peer reviewed, Open Access journal published bi-monthly by ASCO. The journal focuses on the unique challenges of cancer care and research facing resource constrained countries

to raise awareness, increase early detection and prevention, and improve end of life care.

JCO is enhanced by specially selected editorials, commentaries, reviews and recent innovations including:

- ▶ Rapid Communications: fast-tracks the most important clinical research and publishes online for the widest possible dissemination
- ▶ Oncology Grand Rounds: case-based presentation of treatment or diagnostic approaches that practitioners can immediately apply to their clinical practice
- ▶ Understanding the Pathway: a snapshot of the relevant biology that underlies an accompanying Original Report

ASCO's prestigious family of journals is expanding

ASCO launched two new online-only journals in 2017, to better serve the oncology community

JCO™ | CLINICAL CANCER INFORMATICS

JCO Clinical Cancer Informatics (JCO CCI) is an interdisciplinary and borderless journal publishing clinically relevant research based on biomedical informatics methods and processes applied to cancer-related data, information, and images. JCO CCI will help inform on how to integrate system of care delivery to enhance patient care.

JCO™ | PRECISION ONCOLOGY

JCO Precision Oncology (JCO PO) publishes research that advances the science and practice of precision oncology and defines genomics-driven clinical care of patients with cancer. The journal provides a deeper understanding of actionable cancer genomics, personalized translational and clinical oncology research, and recent treatment advances based on tumor molecular profiling.

Unparalleled Access To Unrivaled Content

Springer Healthcare is proud to represent licensing for the American Society of Clinical Oncology®

Springer Healthcare is globally committed to fulfilling unmet educational needs of healthcare professionals by delivering strategic communications to improve diagnosis, patient care, and outcomes. Contact Springer Healthcare for a full range of ASCO licensing opportunities.
