

Springer Healthcare is proud to be the EXCLUSIVE worldwide* vendor for the American Society for Nutrition for English and translated reprints

The American Society for Nutrition (ASN) is a non-profit organization dedicated to bringing together the world's top researchers, clinical nutritionists, and industry to advance knowledge and application of nutrition. ASN's focus ranges from the most critical details of research and application to

the broadest applications in society, in the United States and around the world. The society fulfils its missions in providing opportunities for sharing and disseminating peer-reviewed nutrition research results in its publications.

The American Journal of Clinical Nutrition

The AJCN is the most highly rated peer-reviewed journal in ISI's nutrition and dietetics category and publishes the latest worldwide basic and clinical studies relevant to human nutrition in topics such as obesity, vitamins and minerals, nutrition and disease, and energy metabolism. AJCN was selected as one of the top 100 influential journals in Biology & Medicine over the last 100 years (Special Libraries Association).

Current Developments in Nutrition

CDN is a new open access, multidisciplinary nutrition science journal and will expand the scope of nutrition research published by ASN, ranging from deep, mechanistic studies at molecular/biochemical and cellular levels to whole-body metabolism, clinical health, fitness, and population health.

Advances in Nutrition

As the pace of research in the nutritional sciences continues to accelerate, ASN's newest journal- Advances in Nutrition - responds to the growing demand for a prestigious, high-profile publication that gathers, synthesizes, and explains the current state of knowledge in all facets of the field.

The Journal of Nutrition

Published since 1928, The Journal of Nutrition was the first scientific journal created solely for publication of nutrition research. Contents include peer-reviewed research reports on all aspects of experimental nutrition, critical reviews, commentaries, and symposia and workshop proceedings.

Reprints and ePrints – delivering high-quality, powerful, and objective content for healthcare professionals

Article reprints and ePrints continue to act as the cornerstone of communication between medical research and clinical practice. With over 30 years of market experience, Springer Healthcare has a reputation for providing independent and high-quality publications to help objectively disseminate powerful information about your products.

Benefits:
